

*Future Energy ... Today*

## Description

OneraSystems have has finalized the supply and Installation of 28 KWp Solar PV Power Plants in 2 Sites connected to the National Grid for Echem & Midtab Co., owned by Ministry of Petroleum.

The installed Systems are generating approximately 51 MWH/Year, saving 28 Tons of CO2 yearly and 390 Thousand Cubic Feet of Natural Gas per Year.

Systems were installed within initiative of the Egyptian Government to install Solar Power Systems over 1,000 Governmental buildings within 2 years.

## Highlights

- Modules Power : 28 KWp
- Grid Inverter Capacity : 28 KW
- Installation Period Per Site : 15 Days
