LitWay™

Street lighting PV Solar System Sets you Free Grid Dependency

While conventional grid connected street lighting systems require onerous installation processes coupled with costly infrastructures, **LitWay™** is characterized by hassle free installation procedures, where you can have a system up and running in just few hours.

LitWay™ Systems provide sustainable illumination all night long.

LitWay™ Street Lighting systems are specially designed to provide essential Lighting For roads streets sidewalks pathways gardens yards fences and parking lots, thus providing essential safety and security during night time. The system can also power surveillance cameras and electronic gates of farms and remote protected areas.

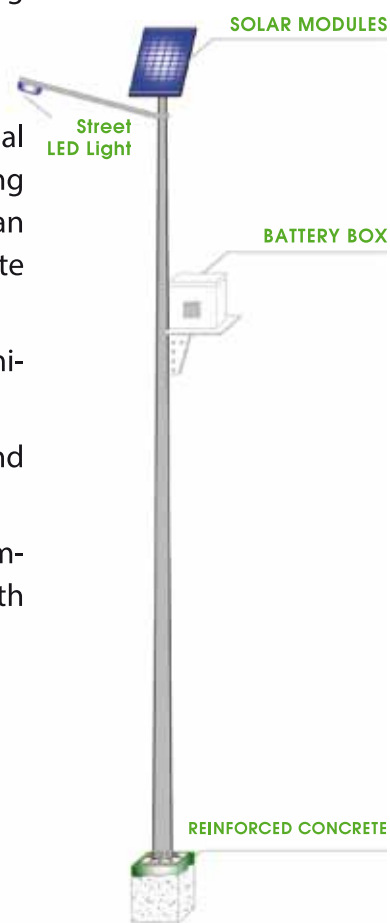

LitWay™ defies concerns on power failure at times where street and Pathway illumination is crucial for protecting lives and properties.

LitWay™ provides "Install & Forget" peace of mind from costly installation and difficult operation.

LitWay™ uses top end modules, batteries and controllers that are crucial for seamless and sustainable operation 24/7 and are free from any cabling, wiring, earth moving, or other installation hassles.
